

<b>Post title</b>	Skilled Operative
<b>Location</b>	Lower Broadheath, Worcester
<b>Department</b>	Main Bakery
<b>Shift</b>	B – Wednesday to Saturday / Thursday to Saturday, average of 39.5 hours a week
<b>Rate of Pay</b>	£ 7.94 per hour
<b>Overall job purpose</b>	To fulfil a designed key skilled role that safeguards product and business risk. Ensure operations are running smoothly, all technical paperwork is completed accurately and on time. The job holder needs to have a specialist skill in carrying out a designed process or procedure and will be accountable for such.

### Duties and Responsibilities

- You will be setting up and running machinery or equipment and supplies ensuring these are ready before the team can fulfil orders and a continuous flow of production
- Carry out procedures that safeguards product and business risk (i.e. date printing/metal detecting, etc.). Checking instruments such as temperature gauges, at regular intervals, ensuring all technical paperwork is completed accurately and on time
- Ensure the correct method of manufacture is followed to quality and legal standards, maintaining production/hygiene specifications/practices working to good manufacturing practices
- Ensuring wastage is recorded and reported to your Team Leader or Manager
- Maintain an observation of product life and ensure products are rotated accordingly
- Ensure that products, ingredients, equipment and packaging are correctly labelled and kept in a clean and tidy condition, checking all areas before transferring from one area to another. Identifying any issues or problems to the Team Leader or Manager
- Ensure the transfer of products, packaging, ingredients and equipment from one area of the factory to another is done by following the low risk/high care area procedures
- Ensuring a customer focused environment, communicating clearly with third parties visiting site
- Prepare tooling for changeovers and performed machine changeover
- Operate trucks or other industrial vehicles to transfer the ingredients/packaging/products/equipment between working areas when needed

### Skills required:

- Previous experience in a similar role – setting / adjusting and running multiple types of machinery / equipment
- Good communication skills, prioritisation and organisational skills
- Ability to work accurately in a pressurised and busy environment
- Flexible to undertake a variety of different job roles
- Ability to work as part of a team
